

# Dommeti Venkata Sai Krishna Vasanth

## Full Stack App Developer | Web Developer

vasanthdommeti9999@gmail.com | +916300500097 | [Linkedin](#) | Bengaluru

### PROFESSIONAL SUMMARY

Mobile-first full-stack developer with nearly 3 years delivering React and React Native products. Known for clean, fast UI, reliable API work with Node.js, Strapi, MongoDB, and hands-on leadership. Outcome-focused and ready for contrafull-time.

### SKILLS

Html	CSS	Javascript	TypeScript	React	React
Redux	Context API	Node.js	MongoDB	Appium	Native
					Python

### EXPERIENCE

#### Rovia – Contractor (Front-End / Mobile)

Sep 2025 - Present

- Contract role focusing on React Native mobile features and rapid prototyping.
- Collaborated with design and backend teams to integrate APIs and ensure consistent UX across iOS and Android.

#### NeoITO – SDE 1 (Front-End Mobile App Developer)

Jan 2025 - Sep 2025

- Developed and maintained front-end components for mobile apps using React Native (expo) and TypeScript.
- Implemented responsive UI patterns, performance optimizations and cross-platform compatibility. Implement best coding practices, ensure responsive design, and maintain high code quality standards.

#### Xorstack – Software Developer (Full-Stack, React Native)

Dec 2022 - Jan 2025

- Led a small team building end-to-end mobile apps (React Native) and backend services (Node.js, Strapi, MongoDB).
- Designed and launched Vyapy consumer & business apps (mobile + web) and Bread Factory consumer app.
- Integrated FCM for notifications, implemented state management (Redux/Context)

### PROJECTS

#### Rovia – Stock Brokerage & RSU Asset Management App

Sep 2025 - Present

- Built completely from scratch and handled end-to-end development independently.
- Developed using React Native Expo and Expo Router for fast, modular workflows.
- Engineered secure authentication, trading workflows, and RSU dashboards.
- Implemented real-time market data, watchlists, and optimized rendering.

**Bread Factory – Consumer App**

Jan 2025 - Sep 2025

- Built major parts of the app from scratch and handled development with a 2-member team.
- Implemented real-time stock syncing, smooth animations, and micro-interactions.
- Integrated Razorpay payment gateway for seamless checkout.
- Improved list rendering efficiency and reduced overall load time.

**Vyapy – Consumer & Business Apps**

Dec 2022 - Jan 2025

- Multi-role apps enabling ordering, routing, table management, and live kitchen updates.
- Delivered real-time order flows, optimized Redux state, and improved app performance.
- Integrated Stripe for secure payment processing.
- Reduced navigation latency and integrated reliable FCM push notifications.

**Jagatjit – Web Application**

May 2024 - Jun 2024

- High-impact marketing website with GSAP-powered animations.
- Improved performance by optimizing animation triggers, reducing repaint cost, and compressing assets.

EDUCATIONAL BACKGROUND

**Bachelor of Engineering**

2018 - 2022

Global Academy of Technology, Bengaluru, Karnataka

- Graduated in the field of Electronics and Communication Engineering with 7.0 CGPA
